Orlando A&E Trolley

X-Ray · Waterproof · Anti Microbial · Crib 5 · 240Kg

The Orlando Accident and Emergency Trolley provides patient transportation, examination and X-Ray facilities within a variety of acute healthcare departments. The design is robust and provides reliability and product longevity. Easily manoeuvrable with large 200mm castors, the trolley features hydraulic height adjustment and trendelenburg tilt to -12°. There is a full length X-Ray deck with cassette access on both sides and at either end of the trolley. The backrest is fully adjustable to 85°. The trolley has chrome fold-down side support rails and has a safe working load of 240Kg. Additionally, there is a documents tray and storage basket for patient belongings on the base frame which can accommodate oxygen cylinders up to size F. The standard 100mm foam mattress supplied as standard has a safe working load of 150Kg. The trolley includes a telescopic IV pole with integral storage facility.

Model

PTX4200   Orlando A&E Trolley

Trendelenburg tilt -12°

Adjustable backrest from 0° to 85°

Model PTX4200 shown with standard mattress,
